WORK EXPERIENCE

Coverfox Insurance   **Mumbai,India**
Software Development Engineer   *Jan 2023 - Jun 2023*

- Designed and developed a full-stack web application using React js , Rest API, Postgres , Bootstrap & Webpack5.
- Created RESTful APIs for the front-end to communicate with the back-end, enabling seamless data exchange.
- Implemented **Car Insurance Calculator** which led to a **20%** improvement in the conversion rate, translating website visitors into insurance policy buyers more effectively.
- The user-friendly interface and accurate premium calculations resulted in a **30%** increase in policy sales compared to the previous period.
- The introduction of the insurance calculator attracted a wider audience, leading to a **50%** increase in website traffic.
- Fixed various bugs in KYC implementation which increases the debugging & code readability and also made Postman collection of various insurers.
- Assisted senior developers with the design and development of a web-based application.
- Conducted testing and debugging to ensure application stability and functionality contributed to team meetings and project planning sessions.
- Used Agile methodology for project management and collaborated with cross-functional teams & gained experience with HTML, CSS, JavaScript, React, Python, Django, Webpack and deployment.

EDUCATION

Indian Institute of Information Technology Pune   **Pune,Maharastra**
B.Tech in Electronics & Communication Engineering CGPA -7.92   *Graduation Date: Aug 2023*
